Education

Automotive Certificate
FUNiX, 2021 - 2022

Automotive engineering technology
University of Transport Technology,
2016 - 2021

Summary

I have finished 5 years of university studies and have some experience working in the garage during my internship. After graduation, I work in Manh Hung auto parts company as warehouse staff.

I always wanna try learning programming and in December 2021, I finally made up my mind and registered for an Automotive Application Development with C++ course in FUNIX. I found it fits me perfectly, I almost finished the course and am eager to get a job.

Skill Highlights

- HTML, CSS, Javascript, C++, Python
